COVER LETTER

Dear Hiring Manager,

JOB POSITION : WEB DEVELOPER

Dear Hiring Manager:

Are you searching for a full-stack web developer with a proven ability to develop high-performance applications and technical innovations? If so, please consider my enclosed resume.

Since 2020, I have been leveling up my skills as a creative web developer leveraging a background in business and art to build more intuitive user experiences. Dedicated to constructing and optimizing the performance designs of high-impact websites.

Adept at leveraging technical, analytical, and problem-solving skills to create dynamic high-speed competitive website advantages in fast-paced remote environments. Implementing innovative solutions for multimillion-dollar, globally deployed applications. I am responsible for full stack development of next-generation applications, from initial requirement gathering to design, coding, testing, documentation and implementation.

Known for excellent client-facing skills, I have participated in proposals and presentations that have landed six-figure contracts. I also excel in merging business and user needs into high-quality, cost-effective design solutions while keeping within budgetary constraints.

My technical expertise includes cross-platform proficiency in Windows and iOS; fluency in multiple scripting/programming languages and advanced knowledge of developer applications, tools, methodologies and best practices.

My experience developing user-friendly solutions on time and on budget would enable me to step into a development role at your company and hit the ground running. I will follow up with you next week, and you may reach me at (828) 333-8983. I look forward to speaking with you.

Sincerely,

Joshua M Small

JOSHUA M. SMALL

JOSHUA SMALL

FULL-STACK WEB DEVELOPER

Address : 5577 Siler Street Trinity NC USA 27370-8879.

PROFESSIONAL PROFILE

Full Stack Web Developer leveraging a background in art and business to build a more intuitive user experience on the web, building MERN Stack CRUD applications. Known as a self-motivated and innovative problem-solver passionate about developing UI designs with UX aesthetics, with a focus on user-friendly mobile-first design and development. Excelling in organization, creativity, and teamwork.
